

Fowl Beauty Contest

THE STORY

Every year after Thanksgiving, the surviving birds at Farmer Brown's fowl farm held a poultry parade of beauty and elected a queen. The five contestants this year were named Daphne, Gale, Clarise, Tessie and Ginnie. They were a duck, a goose, a chicken, a turkey and a guinea hen. In the talent competition, they all did imitations of another type of bird; they quacked, honked, cackled, gobbled and shrieked. In the swimsuit competition, they all wore different colored bikinis. Their bikinis were red, yellow, green, orange and pink. They each received a different number of votes; they received 100 votes, 150 votes, 200 votes, 300 votes and 500 votes. Based on the clues, match the names with their type of bird, their imitations, the color of their bikinis and the number of votes each bird received.

THE CLUES

1. The cackling goose received twice as many votes as the quacking guinea hen but still placed second to the honking turkey, who received five times as many votes as the shrieking chicken in the orange bikini.
2. The third place duck in the red bikini received twice as many votes as Gale.
3. Tessie received 50 fewer votes than Clarise.
4. Daphne, who did not wear yellow, received more votes than Ginnie, or the bird in the hot pink bikini.

Announcing The Winner

THE STORY

The announcer at the India Apples Raceway became so excited at the close finish of the top five racers that he got just about everything wrong. He not only got the order of the finish all wrong, but he also got the first and last names of the drivers all wrong. In addition, he got the numbers of the cars all wrong, and the colors of the cars all wrong. He did manage to correctly identify the last names with the correct colors. Listed below is all the mostly incorrect information. Based on the clues, figure out all the correct information.

1st Place	Number 10	Blue Car	Roy Barrett
2nd Place	Number 15	Red Car	Jack Brighton
3rd Place	Number 20	Pink Car	Bob Evans
4th Place	Number 40	Yellow Car	Mel Avery
5th Place	Number 60	Green Car	Harry Campbell

Looking at this chart, you know for sure that first place was not number 10 in the blue car, Roy's last name was not Barrett, and neither name was correct for place or number, but Barrett was in a blue car someplace.

THE CLUES

1. The three cars with the highest numbers did no better than 3rd place, but number 20 did not finish last.
2. Bob finished behind Harry but just in front of Mel, while Jack finished in front of Roy but did not come close to winning the race.
3. Car number 60 was not blue.
4. Remember, all of the information given at the left is wrong except the last names of the drivers matches correctly with the colors of the cars someplace in the chart, but not with the given order of finish, first names or car numbers.
